## Tips for Growing Peonies

Full Sun

Well-drained, rich soil

Keep slightly moist

Protect from heavy winds

Peony eyes should be near ground level. Planting too deep will result in slower growth and fewer blooms.

## For Field Growers

Space them 3-4 feet apart for good air circulation.

## Advantages of planting in Fall:

Larger plants in the Spring. Spring-planted peonies generally lag about a year behind those planted in the fall.

# PAEONIA

## Garden Peony

Low maintenance perennials for any garden. Clump forming bush-like growing habits. Most varieties can be used for cut flower growing. Not particular about soil, but a sunny location is needed for best flower production. Peonies perform best if planted in fall.

Fall delivery from the first week of October.

Hardiness Zone: 3-8
